WHO WE ARE

GLASS IS OUR BUSINESS.

YOUR SAFETY IS OUR PRIORITY.

Gauteng Autoglass is a specialist automotive glass business focused on delivering professional windshield and vehicle glass solutions across Gauteng.

We provide glass replacement and related services to private motorists, insurance clients, brokers, fleets, dealership, businesses and commercial operators.

Our approach is built around three things:

QUALITY. SERVICE. SAFETY.

From the first quotation to the final fitment, we aim to make the glass replacement process simple, efficient and professional.

Because when a vehicle needs a windshield, customers don't just need glass.
They need confidence that the job will be done properly.

PROUDLY GAUTENG

OUR PROMISE

A BETTER GLASS EXPERIENCE

A damaged windshield can disrupt your day, your business or your fleet.
Our job is to make getting back on the road easier.

QUALITY
We prioritise quality glass and professional fitment.

PRECISION
Automotive glass requires accurate fitting and attention to detail.

SPEED
We understand the cost of vehicle downtime.

SERVICE
Clear communication from quotation through to completion.

SAFETY
The windshield is an important part of a vehicle's safety system.

CONVENIENCE
Mobile fitting options help reduce unnecessary disruption.

WE DON'T JUST REPLACE GLASS.
WE HELP GET PEOPLE MOVING AGAIN.

GAUTENG auto glass™

WORLDCLASS WINDSCREEN REPLACEMENTS

ONE VEHICLE DOWN = BUSINESS INTERRUPTED

KEEP YOU MOVING.

OUR OBJECTIVE:

MINIMISE DOWNTIME. MAXIMISE MOBILITY.

MOBILE FITMENT

WE COME TO YOU.

Your vehicle doesn't always need to come to us.

Where mobile fitment is appropriate, Gauteng Autoglass can provide a convenient solution at the customer's location.

- HOME
- OFFICE
- BUSINESS PREMISES
- FLEET DEPOTS
- DEALERSHIPS
- OTHER APPROVED LOCATIONS

Our goal is to reduce unnecessary disruption while maintaining professional fitment standards.

GAUTENG auto glass™

WORLDCLASS WINDSCREEN REPLACEMENTS

CONVENIENCE WITHOUT COMPROMISING PROFESSIONALISM.

MODERN VEHICLES & ADAS

THE WINDSCREEN IS GETTING SMARTER.

Modern vehicles increasingly rely on cameras, sensors and advanced driver-assistance systems.

That means replacing a windshield can involve more than simply fitting a new piece of glass.

ADAS TECHNOLOGY CAN

- Lane Departure Warning
- ForwardCollision Warning
- Autonomous Emergency Braking
- Adaptive Cruise Control
- Traffic Sign Recognition
- Camera-Based Driver Assistance

Where applicable, ADAS systems should be correctly addressed following windshield replacement.

THE GAG PRINCIPLE

RIGHT GLASS. RIGHT FITMENT. RIGHT CALIBRATION

RIGHT GLASS

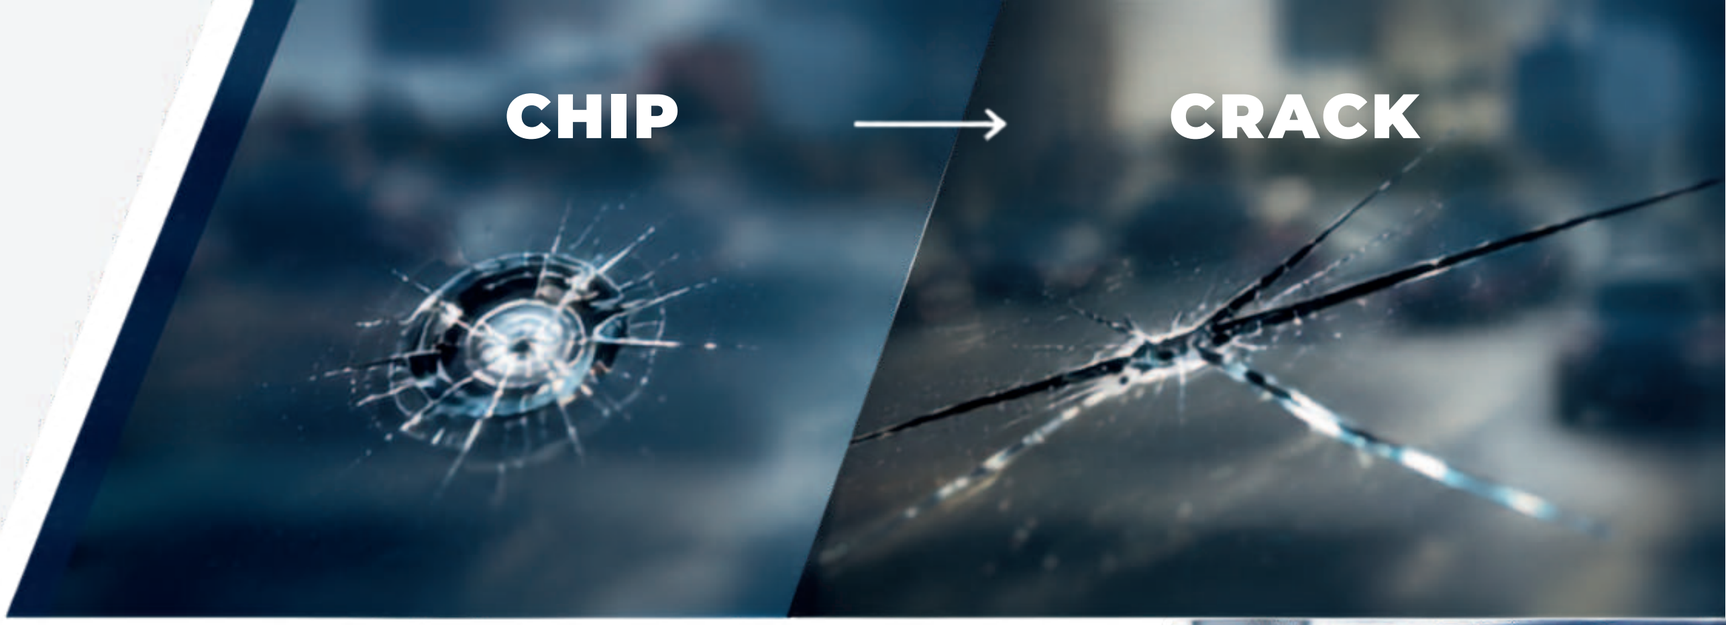

RIGHT FITMENT

RIGHT CALIBRATION

REPAIR OR REPLACE?

WE DON’T IGNORE THE DAMAGE.

A small stone chip can look harmless.
But damage can spread.
Temperature changes, vibration and everyday driving can cause a small defect to become a larger windshield problem.

When appropriate

When necessary

VS

REPAIR WHEN POSSIBLE.
REPLACE WHEN NECESSARY.
